

POOL FENCES

Attractive
frameless glass
pool fences at
a price you can
afford

Maui offers a range of contemporary frameless glass pool fencing, using marine grade stub and face posts and top quality 12mm standard clear toughened glass, which meets AS/ NZ 2208 standard.

- Pool fence glass panels start from 1130mm high x 600mm wide and range up to 1130mm high x 1300mm wide.
- Hinge, gate and latch panels equal 2700mm in total.

HINGES, LATCHES AND STRUT POSTS

Post specs:

Adjustable for glass alignment. Available in standard silver frost finish. Powder coated aluminium. Concealed fixings.

Installation: For code compliance, pool fences must be at least 1200mm high. Maui provides an extra 20mm to allow some variation in installation. If your pool fence backs onto a fall that's greater than 1 metre, you will need a custom barrier solution. For any questions, please email sales@mauiglass.co.nz.

Maintenance: To ensure your Maui pool fence is kept in good working order, all fittings need to be rinsed regularly with fresh water and wiped with a clean cloth.

Technical information: This system has been designed for pool fencing only where the fall height is less than 1 metre.

Fixings:

- All fixings must be installed to the manufacturers standards
- Strength of base substrate must comply with balustrade regulations (load).

New Zealand Standards Summary: Maui Glass Fencing Systems comply with:

- NZS 8500 Safety Barriers & Fences around Swimming Pools, Spas & Hot Tubs
- AS/NZS 2208 New Zealand Standards for Safety Glass Manufacturing

Warranty: 5 Years on all Components.
